SUMMARY

Software Developer with 2+ years of experience building enterprise-grade full-stack web applications using Java, Spring Boot, Angular, JDBC and Oracle. Experienced in REST API, SQL optimization, UI development and CI/CD workflows. Proven ability to deliver scalable features across the SDLC, optimize performance and collaborate effectively with cross-functional teams.

SKILLS

- **Core CS:** Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP)
- **Back-end:** Java, Spring Boot, Spring Framework, Spring MVC, REST APIs, JPA, Hibernate, JDBC, JSP, Servlets, JUnit
- **Databases:** SQL, Oracle, PL/SQL, MySQL, PostgreSQL, RDBMS
- **Front-end:** Angular, AngularJS, ExtJS, TypeScript, JavaScript, HTML, CSS
- **Tools:** Git, GitHub, Maven, SVN, Jenkins, Postman, JIRA, Mantis, Review Board, Artifactory, OpenProject
- **Cloud:** AWS Cloud Foundations, Google Cloud Fundamentals

EXPERIENCE

Software Developer | Winsoft Technologies | Pune | Mar 2023 - Apr 2025

- Developed and maintained enterprise applications for the ASBA (IPO Processing System) used by 15 BFSI clients.
- Designed and implemented Spring-based REST APIs ensuring high reliability and seamless integration between front-end and back-end.
- Delivered 9 major change requests independently across the full SDLC, from requirements gathering to production deployment in an Agile environment.
- Built 20+ reusable UI components using Ext JS and Angular reducing future development effort by 25%.
- Optimized Oracle SQL queries and JDBC interactions, reducing response time by 30%.
- Analyzed application logs and debugged production issues, contributing to ~99% system uptime.
- Conducted API testing using Postman and performed code reviews to ensure code quality and maintainability.
- Worked with Jenkins and SVN CI/CD pipelines to automate builds and generate deployment-ready artifacts.
- Collaborated with stakeholders, QA teams and clients across Agile SDLC phases, contributing to documentation and successful project delivery.

PROJECTS

Split Expenses | <https://github.com/Atharva-Shelke/Split-Expenses>

- Designed relational database schemas and developed a full-stack expense sharing system using **Spring Boot REST APIs, Angular, and Oracle**, enabling group-based expense tracking and settlements.
- Implemented transactional handling, optimized **SQL** queries, and responsive **Angular UI** components for reliable balance calculations and user workflows.

Cricket Series Management API | <https://github.com/Atharva-Shelke/Cricket-Series-Management>

- Developed a **RESTful backend** application using **Spring Boot** and **PostgreSQL** for managing cricket series.
- Implemented layered architecture, CRUD operations, and optimized database interactions to improve maintainability, scalability, and API performance.

Angular Authentication Dashboard | <https://github.com/Atharva-Shelke/Angular-Auth-Dashboard>

- Developed a responsive Angular application with login **validation**, **route protection**, local storage-based **session handling**, and **modular UI** components.
- Implemented Angular routing, form validation, role-based access control, and **authentication workflows**.

CERTIFICATIONS

- Codingame - Java Legend: <https://www.codingame.com/certification/QQiOs1gIGjKwQLPL03ze5A>
- AWS Cloud Foundations: https://www.credly.com/badges/2ff5ab23-7ca2-4821-a0c9-d8443ce400bd/public_url
- Java Programming I (University of Helsinki MOOC): <https://certificates.mooc.fi/validate/afwvffdsds>
- Java Programming II (University of Helsinki MOOC): <https://certificates.mooc.fi/validate/gsfen0asf75>

EDUCATION

- Savitribai Phule Pune University | Pune | B.E. (C.S.E) | 2019 - 2023 | CGPA: 8.78/10
